Crop Specific Advisory:

Crop (Stage)	Crop Specific Advisory
RICE (Harvesting)	Main field preparation : In most of the fields boro harvesting completed . Practice deep ploughing to prepare the main field of kharif paddy using premonsoon rainfall and mix the stubble well with mud.

Crop (Stage)	Crop Specific Advisory
SESAME (GINGELLY/TIL) (Pod Maturity)	Flowering to Pod Development Stage : Farmers are advised to monitor for pod borer infestation closely. If any plants are affected, promptly remove the affected parts. To control the infestation, spray neem oil @50ml/L of water. Ensure spraying is done during clear weather conditions for optimal effectiveness.
