About the company

IRC Agrochemicals Pvt. Ltd. is a 100% subsidiary of Indorama Group. Indorama Corporation is one of Asia's leading chemical holding company. Today based in Singapore, its origins trace back to 1975 with the start of Indo-Rama Synthetics in Indonesia by its founder, M.L. Lohia, and his son, S.P Lohia.

IRC Agrochemicals produces phosphate-based fertilizers in Haldia. IRA's fertilizer business is conducted under the umbrella brand of Paras, which is a premier brand in Eastern India. Paras has a very strong brand equity supported by its unique specifications, quality, and customer support.
